

Robert E. Galbraith, II

Director, Marketing
Transportation Systems Division
Mitsubishi Electric Power Products, Inc. (MEPPI), USA

Mr. Galbraith has over 20 years of experience in the railroad and transit industry, with a primary focus on railway and transit technology and marketing.

Mr. Galbraith is currently the Director of Marketing for Mitsubishi Electric Power Products, Inc, Pittsburgh, Pa, where he is responsible for the Marketing and Sales of Mitsubishi Electric Rail Transportation products and systems. Prior to joining Mitsubishi Electric Power Products, he was the Director of Railroad Systems Sales and Positive Train Control project leader for Ansaldo STS (formerly Union Switch & Signal), based in Pittsburgh, PA. There he also served in several other positions including Director of Product Management and Director of Research and Development. Mr. Galbraith's additional experience includes National Accounts Manager, Technical sales, Rockwell Railroad Electronics based in Cedar Rapids, Iowa; and Account Executive for General Electric Transportation Systems. Mr. Galbraith has also held positions as Manager of Naval Combat System Marketing for Unisys Corporation.

Mr. Galbraith has accumulated over 28 years of active and reserve duty in the United States Navy as a Surface Warfare Officer, currently holding the rank of Captain.

A graduate of Florida Institute of Technology, Mr. Galbraith holds a degree in Ocean Engineering. He also did post graduate work at George Washington University, Washington, D.C.

Mr. Galbraith is also a Councilman for the Borough of Ben Avon, Pittsburgh, PA.

Mr. Galbraith is married to Katherine Brown, and they reside in Pittsburgh, PA.
